

Commitment Declaration by JUNG Verpackungen GmbH to Comply with the EU Deforestation Regulation (EU-DR)

JUNG Verpackungen GmbH hereby expressly commits to complying with the regulations of the EU Deforestation Regulation (EU-DR), which will come into effect in 2025. As a responsible company, we recognize the importance of this regulation in combating ongoing deforestation and forest degradation worldwide. We are convinced that sustainable actions and the preservation of our natural resources are essential for the future of our planet.

Accordingly, JUNG Verpackungen GmbH commits to consistently implementing, maintaining, and regularly reviewing the following measures:

1. Implementation and Maintenance of a Due Diligence Process:

We commit to implementing an effective due diligence process to ensure that all paper products we use do not contribute to deforestation or forest degradation. This includes a comprehensive review of our supply chains and collaborating with our suppliers to ensure compliance with the EU-DR.

2. Ensuring Traceability:

We ensure that the origin of all used paper products is fully traceable. This involves the meticulous documentation and retention of relevant information about our suppliers and the origin of the paper.

3. Conducting Risk Assessments and Mitigation Measures:

Based on the collected information, we will regularly conduct risk assessments. Upon identifying any risks, we will immediately take measures to mitigate these risks, ensuring that our products comply with the requirements of the EU-DR.

4. Documentation and Reporting:

We commit to keeping detailed records and documentation of our efforts and measures to comply with the EU-DR and to provide these to the relevant authorities when required.

Furthermore, we reaffirm our commitment to working exclusively with paper mills that can verifiably comply with the EU-DR. We assure that we do not source paper from dubious origins and strive to procure the raw paper needed for our production exclusively within Germany or Europe, if possible.

JUNG Verpackungen GmbH regards the EU-DR as a sensible and necessary measure to promote sustainable practices and combat deforestation. We commit to fully implementing and regularly reviewing this regulation to contribute to the preservation of global forest resources.
